

How To Get Rid Of Lizards

If you are a citizen of Australia then you must have encountered lizards. Lizards don't know they're on someone else's property, they just like to hunt.

Seal All The Cracks

- If there are space or gap entrance of your door or window seal it.
- Those space and gaps are the entrance for lizards.
- Use a commercial sealant and apply it to the gaps and spaces which might be letting the pests inside your home.

Protect Your Food

- Food item lying in open is an open invitation to the pests.
- Lizard sneaks in to eat the pests when these pests come to eat your food.
- Keep in mind the food left over is directly proportional to the lizard infestation.
- Make sure when you're done with cooking and eating food, clean the area properly.

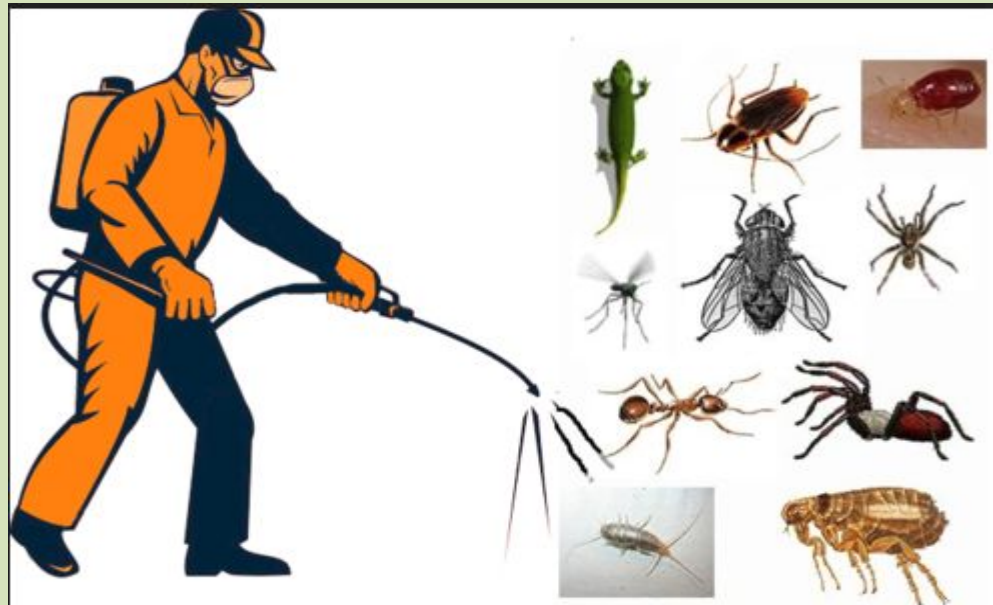

Traditional Way For Lizard Control

- Take a stick and try to scare away the lizards and show them the way to outside.
- Keep in mind to do it gently.
